Questions

Background

In June 2016, City Council
unanimously approved the
Innovation & Growth Fund Policy,
Guidelines and Criteria – including
a \$1M annual grant program

INCLUDED AN UNPRECEDENTED \$10M TO INVEST IN INNOVATION IN
SACRAMENTO

Guiding Principles

The City of Sacramento's SUTL
Innovation Grant Program is
designed to catalyze
innovation in the startup
community and prepare
Sacramento for the industries
of the future

Motivating Problems

Too few opportunities for startups to grow

Too little venture capital investment

Too little interest from big companies to come to Sacramento

Too much reliance on existing industries

What is SUTL?

TRANSFORMING SACRAMENTO INTO A LIVING LAB

Sacramento Urban Technology Lab

The Sacramento Urban Technology Lab (SUTL) is the living embodiment of the “Triple Helix” model of economic innovation, where government, academia, and industry collaborate to transform Sacramento into that of a “living laboratory” for entrepreneurs, advanced technology businesses, and academic institutions to test, develop, and scale their ideas, products, and services.

SUTL Verticals

SUTL vertical focus for the next three annual grant cycles (beginning in 2020 and ending in 2022)

- Internet of Things (IoT) and Cybersecurity
- Mobility
- Health IT and Life Sciences

2020 Program Changes

Still \$1M!

Three processes

- Ecosystem Building Grants – building workforce pipelines to specific industries for startups and individuals in Sacramento
- SUTL Ecosystem Marketing – 2 RFPs + Co-Working Marketing Grants
- Startup Growth Competition – help high-growth scale-ups locate and grow in Sacramento

Expand the reach of entrepreneurial support organizations

Increase opportunities for startups to grow

Increase the number and viability of startups

Increase VC investment in Sacramento

Marketing broadly to change the perception of the ecosystem

Foster and facilitate high-growth startups

Encourage targeted collaborations

Build key industry verticals

Objectives

IGF Guidelines

1. Create jobs
2. Make it easier to conduct business
3. Leverage funds with other private or public funds
 - Fill financial gaps in projects and programs
4. Increase revenue to the City
5. Accelerate growth
 - Promote formation and growth of businesses that engage in the commercialization of innovative research and products or promote emerging industries
6. Encourage diversity and inclusion in the innovation community
